

FREDERICK CABRERA

Full Stack Developer

EXPERIENCE

Full Stack Developer

Flexilabs Inc. | April 2024 - Present

- Develop and maintain scalable web applications using React.js (TypeScript) and PHP, following SOLID principles for maintainability
- Optimize and profile PostgreSQL databases, improving query performance and handling large datasets efficiently
- Collaborate with distributed teams across Australia, India, and China in an Agile/Scrum environment
- Serve as Scrum Lead, facilitating sprint planning, stand-ups, and retrospectives to improve team productivity and delivery
- Contribute to system performance improvements and code quality through structured development practices

Web Development Specialist Senior

Republic Biscuit Corporation | July 2018 - April 2024

- Developed and maintained enterprise-level web applications using Laravel and Vue.js (2 & 3)
- Designed and optimized relational database structures, including indexes and constraints, improving query efficiency
- Built and maintained RESTful APIs for internal systems and integrations
- Implemented automated testing using PHPUnit, improving system reliability and reducing regression issues
- Conducted SQL profiling and performance tuning for MySQL and MariaDB
- Produced technical documentation to support maintainability and onboarding

Web Developer

Advanced Primetech Solution Inc. | November 2016 - June 2018

- Built web applications using Laravel 4 (monolithic architecture)
- Developed REST APIs with authentication mechanisms
- Designed and implemented database schemas using MySQL
- Created responsive and interactive interfaces using jQuery, AJAX, and Bootstrap

Software Engineer

E-secure Technologie Inc. | August 2015 - August 2016

- Developed Windows applications using C# for integrating hardware systems
- Integrated and configured devices such as:
 - Card readers
 - CCTV systems
 - Car park barriers
 - GPS trackers
- Handled network setup and troubleshooting for hardware-software integrations
- Worked closely with SDKs for customized system implementations

About Me

Full-stack developer with 10 years building production web applications across React, TypeScript, Vue, PHP, and Laravel, with deep database expertise in PostgreSQL, MySQL, and MariaDB. I've coordinated delivery with distributed teams across Australia, India, and China – including time as Scrum Lead – and care deeply about clean code, thoughtful database design, and shipping software that holds up under real production load. Open to connecting with engineering teams that value the same.

TECHNOLOGY STACKS

- React JS
- Typescript
- Vue JS
- Tailwind CSS
- Vite
- Claude Code
- NPM
- PHP
- Laravel
- Apache
- Nginx
- C Sharp

EDUCATION

Polytechnic University of the Philippines
BS in Information Technology
2011-2015

LANGUAGE

- Filipino
- English
